H1

A DOG, PLEASE!

ASIDE

ONZE KINDEREN WILLEN GRAAG
HEEL GRAAG

Heel graag. Elke gelegenheid - verjaardag, communie, kerstmis, sinterklaas - is goed om een puppie te wensen. Wij zien dat - voorlopig - compleet niet zitten: we hebben geen tuin, enkel een koer.

ARTICLE > HEADER > H2
> P

we kochten een stuk grond naast ons huis om een tuin aan te leggen. De kinderen zijn dolenthousiast want dat betekent automatisch voor hen: een hond. Ik zie dat eigenlijk niet zo goed zitten want een hond vraagt veel verzorging: eten op tijd, elke dag toch een wandelingske en wie weet haalt hij je net aangelegde bloemenperkje volledig door elkaar.

MAAR ER KOMT VERANDERING:

Ik hou van honden, als kind heb ik er altijd één gehad - wij hadden toen een grote tuin - en als ik thuis weg wilde, was het obligate wandelingske met de hond.

Heel graag. Elke gelegenheid - verjaardag, communie, kerstmis, sinterklaas - is goed om een puppie te wensen

DOGS SEEM TO COME IN ALL SIZES

shapes and color - every kind of personality that a person could imagine. Everyone seems to have their favorite breed. I guess that is good since it gives many dogs opportunities to have great homes and develop special skills. Many breeds perform very important jobs for people. I personally love the mixed breeds since I have seen literally thousands during my years of helping the shelter. They are all still great dogs inside - some are just a little prettier than others! But every dog, no matter their breeding, is a loyal companion giving unconditional love.
