- The scope of the MT is set at **45 65 pages**.

The example of the structure of the description of FT

- Title: Methods of evaluating the efficiency of the company
- The aim of the master thesis is to evaluate the economic efficiency of the • selected company. The annual reports of FIRM and industry values available at the portal of the Ministry of Industry and Trade of the Czech Republic will be used to prepare the master thesis. The data set will cover the period 2015-2020. The introductory part of the master thesis will describe the methods of evaluating the efficiency of the company. In the next part of the thesis the literature review regarding the firm's efficiency will be presented. Moreover, the financial statements will be explained. In the practical part of the master thesis will be evaluated the FIRM. The evaluation will be complemented by the recommendations to improve the firm's efficiency.

The example of the structure of the description of FT

• Setting **the aim** of the master thesis is very important part of the description.

• The aim is the answer to the question, 'What are you doing?'

- 1. You need to clearly describe what your intentions are and what you hope to achieve. This is the aim.

- 2. Be very explicit. In the opening paragraphs, say, in simple terms, 'the aim of the master thesis is to...'

The example of the structure of the description of FT

• Methodology – used methods

- Data data collection:
 - primary data one which is collected for the first time by the researcher through direct efforts and experience,
 - secondary data the data already collected or produced by others.

- The minimum is 7 sources of literature in the description of FT.
- Everything must be according to the citation standard!

• Differences?

Citation methods in the text of the FT

- The taken text can be cited in the following forms:
 - a) Direct citation the text is taken literally from the original work and is in quotation marks.
 - b) Indirect citation (paraphrase) the text is interpreted from the original work in own words, without changing the meaning of the text.
 - c) Citation for the entire work only given if the author refers to the whole original work.

• Direct citation:

- Novák (2010, p. 26) states that "the main drivers of the financial crisis were the US real estate price bubble, the lack of regulation of financial market supervision and the failure of credit rating agencies."
- According to Pokorný and Polák (2007, p. 29), "the most significant risk for the Chinese economy for the next decade is the possibility of a sharp rise in inflation."
- "The economic recession is usually accompanied by a decline in economic performance and an increase in the unemployment rate." (Novotný 2009, p. 297).

Citation methods in the text of the FT

• Indirect citation:

- As stated by Wang (2010, p. 96), the entry price is the value from which the assets are depreciated.
- Significant factors of the economic recession in the Czech Republic included lower economic activity of companies due to the fall in exports and insufficient household consumption (Novak 2010, pp. 25-70).

Citation methods in the text of the FT

- Citation for the whole work
 - The theory of macroeconomic shocks is described by Novotny (2009).
 - The most important contemporary textbook on marketing management is considered to be the textbook by Kotler and Keller (2013).
 - Banker et al. (2004) believe that the socialist economy showed a slowdown in the 1980s.
